

## MARKETS

### Stocks Go Down.

NEW YORK, Nov. 11.—Stocks went down with a crash today, all gains made in the previous month and more, in a number of instances being sacrificed in the wave of liquidation which swept over the market during the furore of the final hour.

Excepting U. S. steel and representatives of railway shares in which recognitions were compared to moderate leaders, reduced to almost 40 points. General Motors, which had been holding its position for its recent advance, went also from \$86. its best price of the morning to \$48.

Primarily the violent upheaval was attributed to reducing stringency in the market for credits. Call loans opened at the rate of 14 per cent and held at that rate until the last hour, when 20 per cent was demanded, with another jump to 22 per cent just before the finish.

To add to the excitement, further apprehension was caused by the demoralized conditions which prevailed in the market for foreign exchange.
